

Matrix Technologies, Inc., established in 1980, has annual sales in excess of \$20 million, over 140 employees, and supports customers around the world.

Matrix Technologies' corporate headquarters is in Maumee, Ohio (Toledo area); with regional offices Denver/Boulder, Colorado, Indianapolis, Indiana and a sales office in Cleveland, Ohio.

With over 29 years of experience in the industrial marketplace, Matrix has achieved a well-respected position as a leader in control systems, and process and facilities engineering services. Our varied industry experience offers a wide range of complementary services to our clients.

**Matrix provides Integration Engineering Services:**

**Control Systems Integration:** providing integrated process control and factory automation systems; including specification, design, programming, implementation, validation, startup and optimization using PLC, DCS, hybrid, and PC-based systems for all levels of integration.

**Process and Facilities Systems Integration:** providing multi-discipline engineering, piping, mechanical systems, power, control and instrumentation services; and civil, structural, HVAC, plumbing, electrical, and architectural layout and design.

**Engineer, Procure & Construct Services:** providing full turnkey project execution including fabrication, installation, commissioning and construction management services.

Matrix provides project services to clients throughout the world, with installations in over 45 countries. Over 85% of our business is repeat project work from satisfied, long-term clients.

Matrix is a Founding and Certified Member of the Control System Integrator Association.

Matrix is Control Engineering's System Integrator of the Year for 2008.

Matrix is ANSI/ISO/ASQ Q9001-2000 certified through  SAI GLOBAL as a control system integrator in our Maumee and Indianapolis offices.
